## INTERSECTIONALITIES BETWEEN TRANSPORT AND SOCIAL INEQUALITY IN INDIA AND BANGLADESH

THURSDAY 11TH MAY 2023 at 10:30am - 12:00pm (UK time)

*Session Chair: Professor Ajay Bailey (Utrecht University, EQUIMOB)*

**Registration: <https://intalinc.org/events/>**

### **Modest Mobilities: Performing gender and respectability on two-wheelers in Dhaka**

*Seama Mowri, Ajay Bailey*

### **Urban traffic congestion and impact on health of older adults and wheelchair users in Dhaka, Bangladesh**

*Selim Jahangir, Ajay Bailey, Musleh Uddin, Shanawez Hossain*

### **Barriers to women's mobility in the first- and last-mile stretches in Kolkata**

*Sanghamitra Roy, Ajay Bailey, Femke van Noorloos*

In this session, we present results from the [EQUIMOB](#) project where we explore how physical and social barriers to urban transport are widened by the existing infrastructures and the impact these inequalities have on the marginalized and vulnerable populations of the Global South, namely women, people with disabilities and older adults. Using examples from cities of India and Bangladesh, we present cases of women moto-commuters performing gender and respectability on two-wheelers within the urban patriarchal structures of Dhaka. We also look at urban traffic congestion and its impact on the health of older adults and wheelchair users in Dhaka. Finally, the session will discuss the barriers to first and last-mile connectivity for women in Kolkata.
