

What Happened When the Roads Came to my Neighborhood?

Stephen Okoth

Mukuru Kwa Njenga Community

Presentation prepared for INTALInC Conference on
Addressing Transport Inequalities in Global South Cities

University of Manchester, 19th – 21st May, 2026

Who is Steve Okoth?

- * What is your experience living in Mukuru Kwa Njenga, engaging in Integrated Waste Management and experience with daily access and mobility?

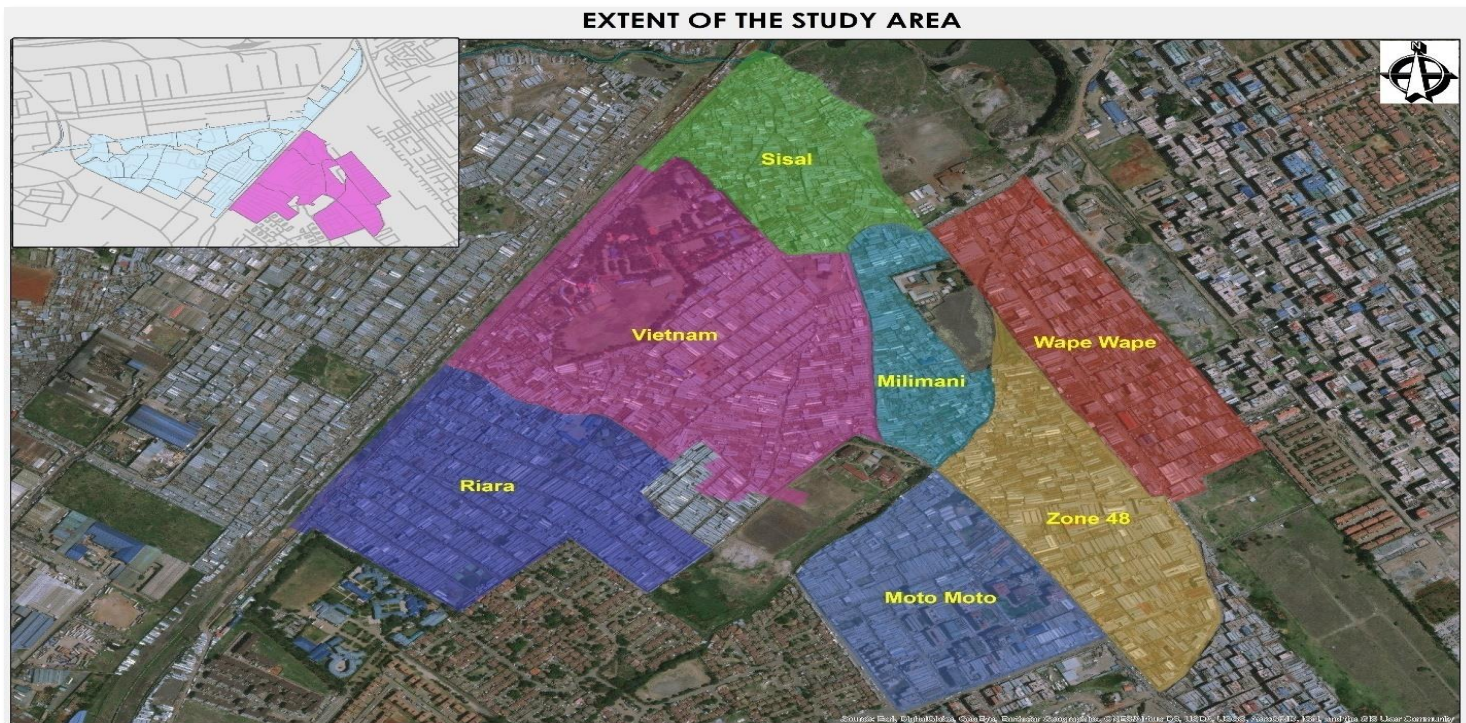

Mukuru Kwa Njenga Community

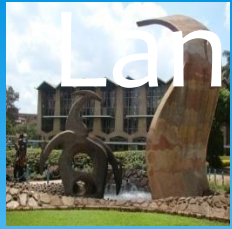

* Villages in Mukuru Kwa Njenga

Mukuru Kwa Njenga Community

Land Tenure & Infrastructure Development

How has lack of land tenure affected development?

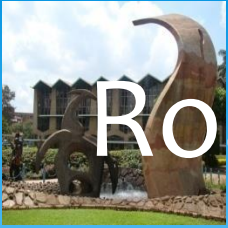

Roads in my neighborhood

- * Catherine Dereva Road; Wape Market Road

Picture portrays the layout and use of Catherine Ndereba road; upgraded by the Nairobi City County Government. Over the years residents walked on the carriageway and are adjusting to the planned mobility route. Some sections of the route are either partially or completely encroached by informal businesses leaving pedestrians no choice but to use the carriageway.

Roads in My Neighborhood

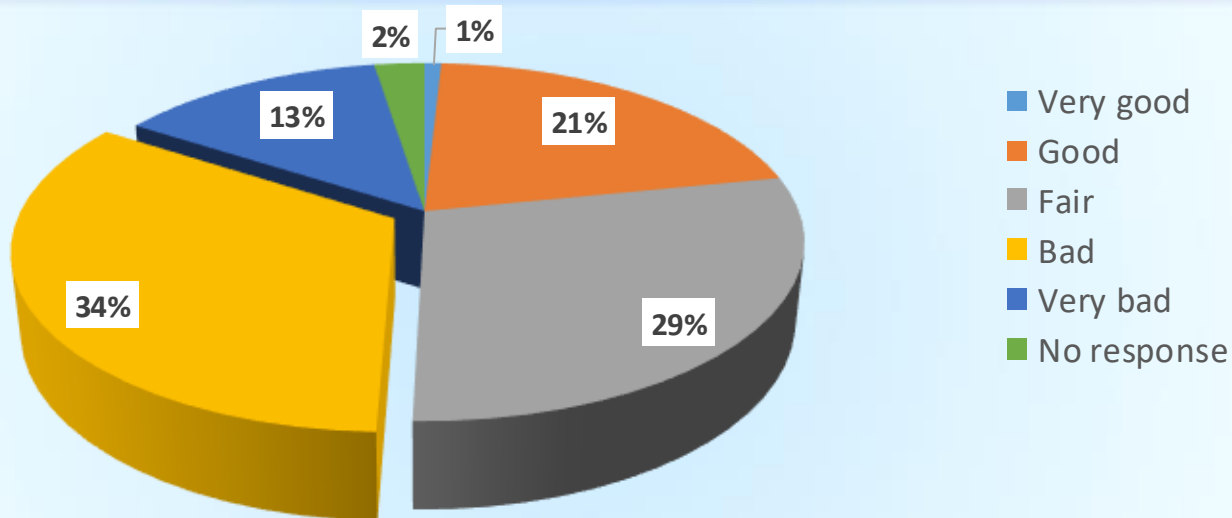

Infrastructure & Special Planning (SP)

How has Special Planning (SP) changed the outlook of walking infrastructure in your community?

Walking Pathways in 2018

Transport Equity

How has infrastructure development influenced issues of transport equity, safety & tenure security in your community?

Fairly wide road without footpaths/sidewalks resulting to conflict between road users

Narrow path in Millmani village being used by pedestrians from different direction

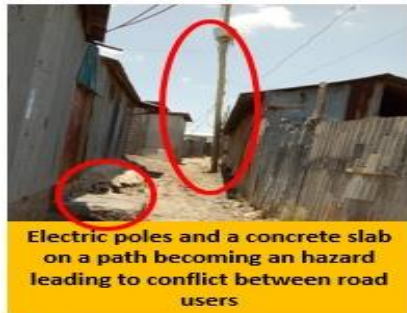

Narrow footpath between two buildings in Sisal with feeble and unstable wooden surface.

Accessibility & Safety

What are your experiences of access and safety?

Outcome of Infrastructure Intervention

What are your positive and negative experiences with outcome of infrastructure interventions in your neighborhood?
